

About Us:

At Ritesh Marble & Granite, we don't just deal in stone - we help shape spaces that feel timeless and refined. We work with a wide range of premium materials like marble, granite, quartzite, onyx, travertine, semi-precious stones, sandstones, limestones, stone finishes and more, carefully sourced from some of the finest quarries across Italy, Turkey, Brazil, China, Spain, Africa, India and beyond. Every slab is chosen with attention to detail, ensuring it adds both beauty and durability to your space. Whether it's a home, a commercial project, or a large architectural vision, we aim to deliver materials that elevate the overall experience.

About the Director:

Ritesh Tak leads Ritesh Marble & Granite with a vision defined by over a decade of specialized expertise in the international stone trade. He founded the company to bring the world's finest imported marbles and granites to the Indian market, focusing on precision, beauty, and authenticity.

Through a commitment to modern business strategies, Ritesh has grown the firm into a nationally recognized leader in premium stone imports. His leadership is centered on sourcing exceptional materials and maintaining the highest standards of quality and craftsmanship. Driven by a dedication to innovation, transparency, and outstanding service, he ensures that every client receives both excellence and integrity in every slab.

STONE FINISHES

SURFACE FINISHES

POLISHED

A glossy, mirror-like surface that enhances color and pattern, ideal for luxurious interiors and countertops.

HONED

A smooth, matte finish with little to no shine, offering a contemporary look and slip resistance for floors and walls.

LEATHERED

A textured, soft-sheen finish that brings out the stone's natural character, perfect for countertops and feature walls.

FLAMED

A rough, slip-resistant surface created by intense heat, ideal for outdoor paving and high-traffic areas.

BRUSHED

A subtly textured finish with a soft feel, adding warmth and depth to floors and wall cladding.

SHOTBLAST

A fine, granular texture that softens color and reduces glare, suitable for facades and landscaping.
